

# Ecogranite Aquaslab Permeable Paving

## Data Sheet

a Forterra brand

Ecogranite Aquaslab is specially designed, incorporating a slot and chamfer, allowing water to disperse at a high rate helping prevent localised flooding. The striking bush hammered finish exposes sparkling granite, offering excellent skid/slip resistance, ideal for use on non-trafficked pedestrian areas. Ecogranite kerb system and edgings have been specially designed to complement the range. The Ecogranite Aquaslab can be specified for all sites designed under BS7533-Pt13.

### UP TO 77% BY-PRODUCT MATERIAL

One of the most sustainable paving options currently available.

### Specification

<b>Block sizes</b> (depth)	<b>60mm</b>
<b>450 x 300mm</b> (blocks per pack)	84
<b>Coverage per pack</b> (m <sup>2</sup> )	11.34
<b>Weight per pack</b> (tonne)	1.49

Precast concrete block paving  
Manufactured to: BS EN 1338:2003  
Tensile splitting strength 3.6 Mpa

Strength durability Class 1  
Slip/skid resistance Extremely low

**Finishes**  
Bush hammered finish

**Applications**  
For use on pedestrian areas.

The Ecogranite Aquaslab permeable blocks are best used in combination with the Formpave Aquaflow® System, a unique patent protected sub base design which utilises geogrids to reduce sub base depth without effecting structural strength. This system has BBA Accreditation and we offer a free bespoke design service to help you minimise your construction costs.

\* Colour purposes only. † Special order.
