

**CLASS B SOLID ENGINEERING 65MM**

# CLASS B SOLID ENGINEERING 65MM

**Manufactured to BS EN 771-1**

**Brick type**

Category II, U, Clay Masonry Unit

**Standard work size**

215 x 102.5 x 65mm

**Dimensional tolerances**

Tolerance category: T2

Range category: R1

**Compressive strength**

$\geq 75\text{N/mm}^2$

**Water absorption**

$\leq 7\%$

**Durability**

F2

**Active soluble salts content**

S2

**Configuration**

Solid

**Dry weight per brick**

3.3kg

**Pack size**

452

**Factory**

Accrington

**SKU**

SACCCBS1600V0

Forterra Class B engineering bricks are sold as "utility" bricks to conform to a high technical specification. Class B Engineering bricks are not sold as facing bricks and therefore may vary in colour and/or texture, and occasionally contain bricks with superficial blemishes such as chipping, hairline cracks and crazing etc. To this end the imagery is for indicative purposes only.

Disclaimer: The reproduction of colours and textures is only as accurate as the printing process will allow. Photographic samples should be used when shortlisting products but we advise that an actual sample should be seen before ordering.
